One focus of the Architecture and Design issue of TROX life, which you will receive before long, is the combination of design and efficiency.

Among other features, we introduce two ambitious building projects which are remarkable for their sustainability both with regard to construction and to usage: the International Quarter London (Stratford) and Barangaroo South in Sydney.

Technical know-how is not everything, though. We also want to entertain you. You'll find interesting, surprising and also bizarre bits and pieces in the new issue of TROX life: Architecture and Design.

Enjoy!
