THE NEW TROX LIFE - FIRE AND SMOKE

□

FIRE PROTECTION AND SMOKE EXTRACTION SYSTEMS

.... with red-hot topics, because the focus of this issue is on fire protection and smoke extraction.

Among other things, you will read an interesting report on the refurbishment of high-rise buildings in Dresden-Prohlis. Here, communication is the key to greater safety in the face of special fire protection challenges. We continue with underground garages in which intelligent smoke extraction concepts guarantee maximum protection.

The "Forum and Economy" section highlights the billions of euros in damage caused by fires every year; the report presents how drones are used for early detection of forest fires.

Of course, there is also a detailed follow-up report on this year's ISH - you can read everything else in the new issue, which is now available at the receptions in ZG 1 and ZG 2 and has already been sent to the branches and subsidiaries.

We hope you enjoy reading it!

MISSED A TROX LIFE ISSUE?

Our goal is to awaken your interest in air and keep it awake! The TROX life customer magazine gives you regular updates on the topic of air and offers many interesting perspectives.
