

## TJN

The new product type is not only aesthetically attractive but also more energy efficient; plus it offers improved acoustic properties.

- Up to 6 dB less noise than with DUK jet nozzles due to optimised nozzle contours
- . Jet angle can be adjusted, limited, and fixed
- Two-step reduction of the discharge range for smaller spaces High-grade polymer in RAL white aluminium or pure white .
- .
- Simple installation due to bayonet fixing at the discharge ring
  Self-adjusting variant with short response time due to actuator
- Flat external motor ensures compact installation and increased energy efficiency Integration with measurement and control system is possible Five sizes, each available for duct (rectangular or circular) or direct .
- .
- . connection
- All variants are also available with outer casing for visible areas
